

TS638 Magnetic Mount Antenna

The TS638 is a compact magnetic mount antenna that is specifically designed for indoor and outdoor radio paging applications. The antenna comes with a magnetic base, making it ideal for indoor and mobile uses.

- ***UHF or VHF Frequency Band***
- ***3dB Gain***
- ***Maximum Power of 150 Watt***
- ***Easy To Install***

Specifications:

Dimensions:	3.5" high with 3" magnetic base	Cable termination:	BNC connector
Weight:	1.45 lb.	Frequency Range:	148-174Mhz, 400-470MHz
Maximum power:	Up to 150 Watt	Pull strength:	>90 lb.
Operating Temperature:	-40° to 140°F	Mounting base:	3/4" brass magnetic base
Gain:	3dB	Mounting:	For optimum coverage, the antenna need to be mount on any magnetic metal surface with a minimum 2'x2' area size.
Polarization:	Vertical		
VSWR:	<1.5:1		
Impedance:	50 Ohm		
Cable length:	12'
